

WASHROOM

BIOSOLVE™ BREAKDOWN

dilutable combination cleaner

*“Clean, sanitize, protect
- personal hygiene
away from home”*

Biosolve™ Breakdown safe combination cleaner will remove both nasty odours and organic staining from a multitude of surfaces in commercial, institutional and domestic environments.

Biosolve™ Breakdown uses safe bacteria to degrade organic waste that may be the source of malodour - when activated with water the micro-organisms in this dilutable liquid produce three key enzymes that degrade fats, proteins and starch and are highly effective in removal of oils, grease, food and human wastes.

- Removes uric acid build up and odours from toilet floors
- Degrades waste in sinks, pipes, kitchen drain lines, grease traps and waste bins
- Creates Biofilm to tackle new waste and offers 24 hour breakdown protection

*Biosolve™ Breakdown removes odours and organic stains...
safely and effectively!*

FEATURES

- Ideal for use in all areas, including washrooms, toilets, kitchens, hospitals, hotels, restaurants, nursing homes, schools, leisure centres, health clubs.
- Product can be applied using a cloth, mop or trigger spray
- Peak Enzyme production and stain removal after 8 hours
- Packed 2 x 5 litres (4 trigger spray labels included)
- Cost in use is between 13p and 30p per litre depending on dilution rates.

CARACTERISTICAS

- Ideal para su uso en todo tipo de áreas, incluyendo cuartos de baño, WCs, cocinas, hospitales, hoteles, restaurantes, guarderías, escuelas, centros lúdicos, centros de salud.
- El producto se puede aplicar utilizando un trapo, fregona o rociándolo en spray.
- Costo del litro de producto, entre 15 y 36 céntimos de Euro, dependiendo del grado de dilución del producto.
- Máxima producción de enzimas y limpieza de manchas tras 8 horas de aplicación del producto.
- Cada paquete contiene 2 botellas de 5 litros (incluye 4 piezas para colocar en los dosificadores y rociar)

CARACTÉRISTIQUES

- Conçu pour l'application dans toutes zones – y compris sanitaires, cuisines, hôpitaux, hôtels, restaurants, maisons de retraite, écoles, gymnases
- Le produit s'applique avec un torchon, balai à laver ou en pistolet
- Production maximum d'enzymes et donc d'efficacité au bout de 8 heures
- Conditionnement: 2 x 5 litres (inclus 4 étiquettes pour pistolet)
- Frais d'opération entre 15 et 36 centimes d'euro, en conséquence aux taux de dilution.

CARACTERÍSTICAS

- Ideal para ser usado em qualquer local, incluindo balneários, casas de banho, cozinhas, hospitais, hoteis, restaurantes, infantários, escolas, centros de lazer e health clubs
- Aplicar usando o pulverizador de spray ou uma esfregona
- Produção máxima de Enzimas e remoção de nódoas após 8 horas
- Embagem no formato 2 x 5 litros (4 pulverizadores de spray incluídos)

MERKMALE

- Ideal für die Verwendung in allen Bereichen – Sanitärräumen, Küchen, Krankenhäusern, Hotels, Restaurants, Wohnheimen, Schulen, Fitneßcentren
- Der Produkt wird durch Tuch, Mop oder Sprizzpistole verwendet
- Nach 8 Stunden wird der Höhepunkt an der Herstellung von Enzymen und also an Wirksamkeit erreicht
- Verpackung: 2 x 5 Liter (4 Etiketten für Spritzpistole einbegriffen)
- Laufende Kosten sind zwischen 15 und 36 Cent, von der Verdünnung abhängig

FUNZIONI

- Ideale per l'impiego in tutte zone – bagno, cucina, clinica, albergo, ristorante, casa di riposo, scuola, palestra
- Il prodotto viene applicato mezzo uno straccio, una scopa oppure con una spruzzatrice
- Dopo 8 ore il massimo di produzione di enzime e dunque di efficacia
- Confezione: 2 x 5 litri (incluso 4 etichette per spruzzatrice)
- Spese operative fra 15 e 36 centesimi di euro, di conseguenza al rapporto di diluizione

KENMERKEN

- Ideaal voor gebruik in elke ruimte, incl. sanitaire ruimtes, keukens, ziekenhuizen, hotels, restaurants, kinderdagverblijven, scholen, beauty centres, sportclubs.
- Product kan aangebracht worden d.m.v. doek, mop of spuitflacon.
- Piek enzymproductie en vlekverwijdering na 8 uur.
- Verpakking: 2 x 5 liter (incl. 4 spuitflacons)
- De verbruikskosten liggen tussen de 15 en 36 eurocent per liter, afhankelijk van mate van verdunnen.

CECZY

- Idealny do użycia we wszystkich miejscach w szczególności łazienki, toalety, kuchnie, szpitale, hotele, restauracje, złobki, szkoły, centra sportowe oraz siłownie
- Produkt można stosować przy użyciu szcierki, mopa lub butelki w sprayu
- Maksymalna produkcja enzymu oraz usuwanie zabrudzeń po 8 godzinach
- Pakowany: 2 butelki po 5 litrów (w tym 4 naklejki na butelki w sprayu)
- Koszt użycia : pomiędzy 0.72 zł – 1.44 zł na litr w zależności od natężenia roztworu

APPLICATIONS / RECOMMENDED DILUTIONS

Urinals, sinks and Floors	Dilute 1:10 or 1:20 and clean affected area. Re-apply and allow to dry. Repeat daily until odours are gone, then treat weekly as a preventative
Carpets, fabrics, furniture	Spotting: test area for colour fastness. Apply a 1:4 dilution, rub or scrub gently and then dab off any dirt that has come off immediately. Treat again and leave overnight before dabbing again and rinsing with clean water if required. General Carpet Cleaning: can be diluted up to 1:50
Sinks and drains	Pour 50ml of neat product into the outlet once per week
Grease Traps	Pour 50ml of neat product down the nearest sink once per day, preferably at the end of the day
Tiles and grouting	Scrub off any visible material using a 1:4 dilution of the product in water. Then apply again and leave to dry. Repeat until odour or stains have gone
General deodorising	Use a 1:20 solution
General Cleaning	Can be diluted up to 1:50

ADDITIONAL PRODUCT INFORMATION

The microorganisms in Biosolve™ Breakdown complement those in our Quadrasan® and offer the “complete clean”. The product can be sprayed, poured or mopped on to surfaces to remove all uric and organic build up. Any unused product remaining in trigger bottles or buckets can be simply poured into the urinal or toilet to continue the good work already in progress.

Ideal for use as a combined cleaner with our Quadrasan® Automatic Dosing dispenser for Urinal and W/C Maintenance.
